Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Such a little thing! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right off without pain.

He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement, since the inauguration of the high heels.—Adv.

Mexico City, May 28.—A strike of textile workers in the federal district, the state of Mexico and Veracruz has been settled by arbitration in which C. Lopez de Lara, governor of the federal district, played an important part. The strikers were given increases in wages ranging from 25 to 100 percent, graduated according to the wages now received.

WORKMEN EARNING LESS THAN 75 CENTAVOS A DAY WILL GET 100 PERCENT INCREASE WHILE THOSE EARNING FOUR PESOS OR MORE RECEIVED 25 PERCENT.

As the former wages were based on a ten hour day, however, the actual increase in pay under the present eight hour law will not attain those figures. Piece workers in the textile trades secured advances of from 40 to 100 percent.

FOUR-FOLD BENEFIT

From Two Grand Medicines in Spring. You know that physicians often give two prescriptions, perhaps more, or medicines to be taken together, or alternately or at different times. One reason may be that the medicines are "incompatible" and do not agree when closely mixed in taking; or that desired results cannot be secured by one medicine alone.

The most successful combination spring medicine treatment that we know of—because perfectly "compatible" and productive of the best results—is in Hood's Sarsaparilla and Peptonin Pills. The former thoroughly searches out and expels impurities from the blood, while Peptonin Pills give the powerful tonic—they literally "put iron into your blood."

Hood's Sarsaparilla should be taken before meals and Peptonin Pills after meals—patients taking them so report the benefit is four-fold—prompt, positive, permanent. Both these medicines are economical and pleasant to take.—Adv.
